"Me gustaron. Incluso antes de haberles visto. Aquel rectángulo de madera hablaba por sí mismo, era la carta de presentación del lugar y sus habitantes. Giró sobre sus bisagras, brilló al roce de la luz en su superficie.

Y lo que dejó ver tras su paso me terminó de convencer"

Una puerta introduce, presenta, protege y proporciona intimidad. Articula nuestros movimientos de una estancia a otra, unificando y separando al tiempo. Más allá de su funcionalidad, puede llegar a ser un elemento ornamental de gran protagonismo, tanto en interior como en exterior.

El cuidado en la elección de materiales y texturas, los cuales conjuguen buena calidad y gusto estético, asegura la creación de un espacio decorativo excelente.

"It was perfection. There was an aura about its profile that spoke for itself. It suited exactly its surroundings and its contemporaries. It swung smoothly on its hinges; its surface shone in the light. I was convinced that this was the one for me."

A door is an introduction, a proclamation: it can protect and offer security. It articulates our movements from one room to another. It links yet separates at the same time.

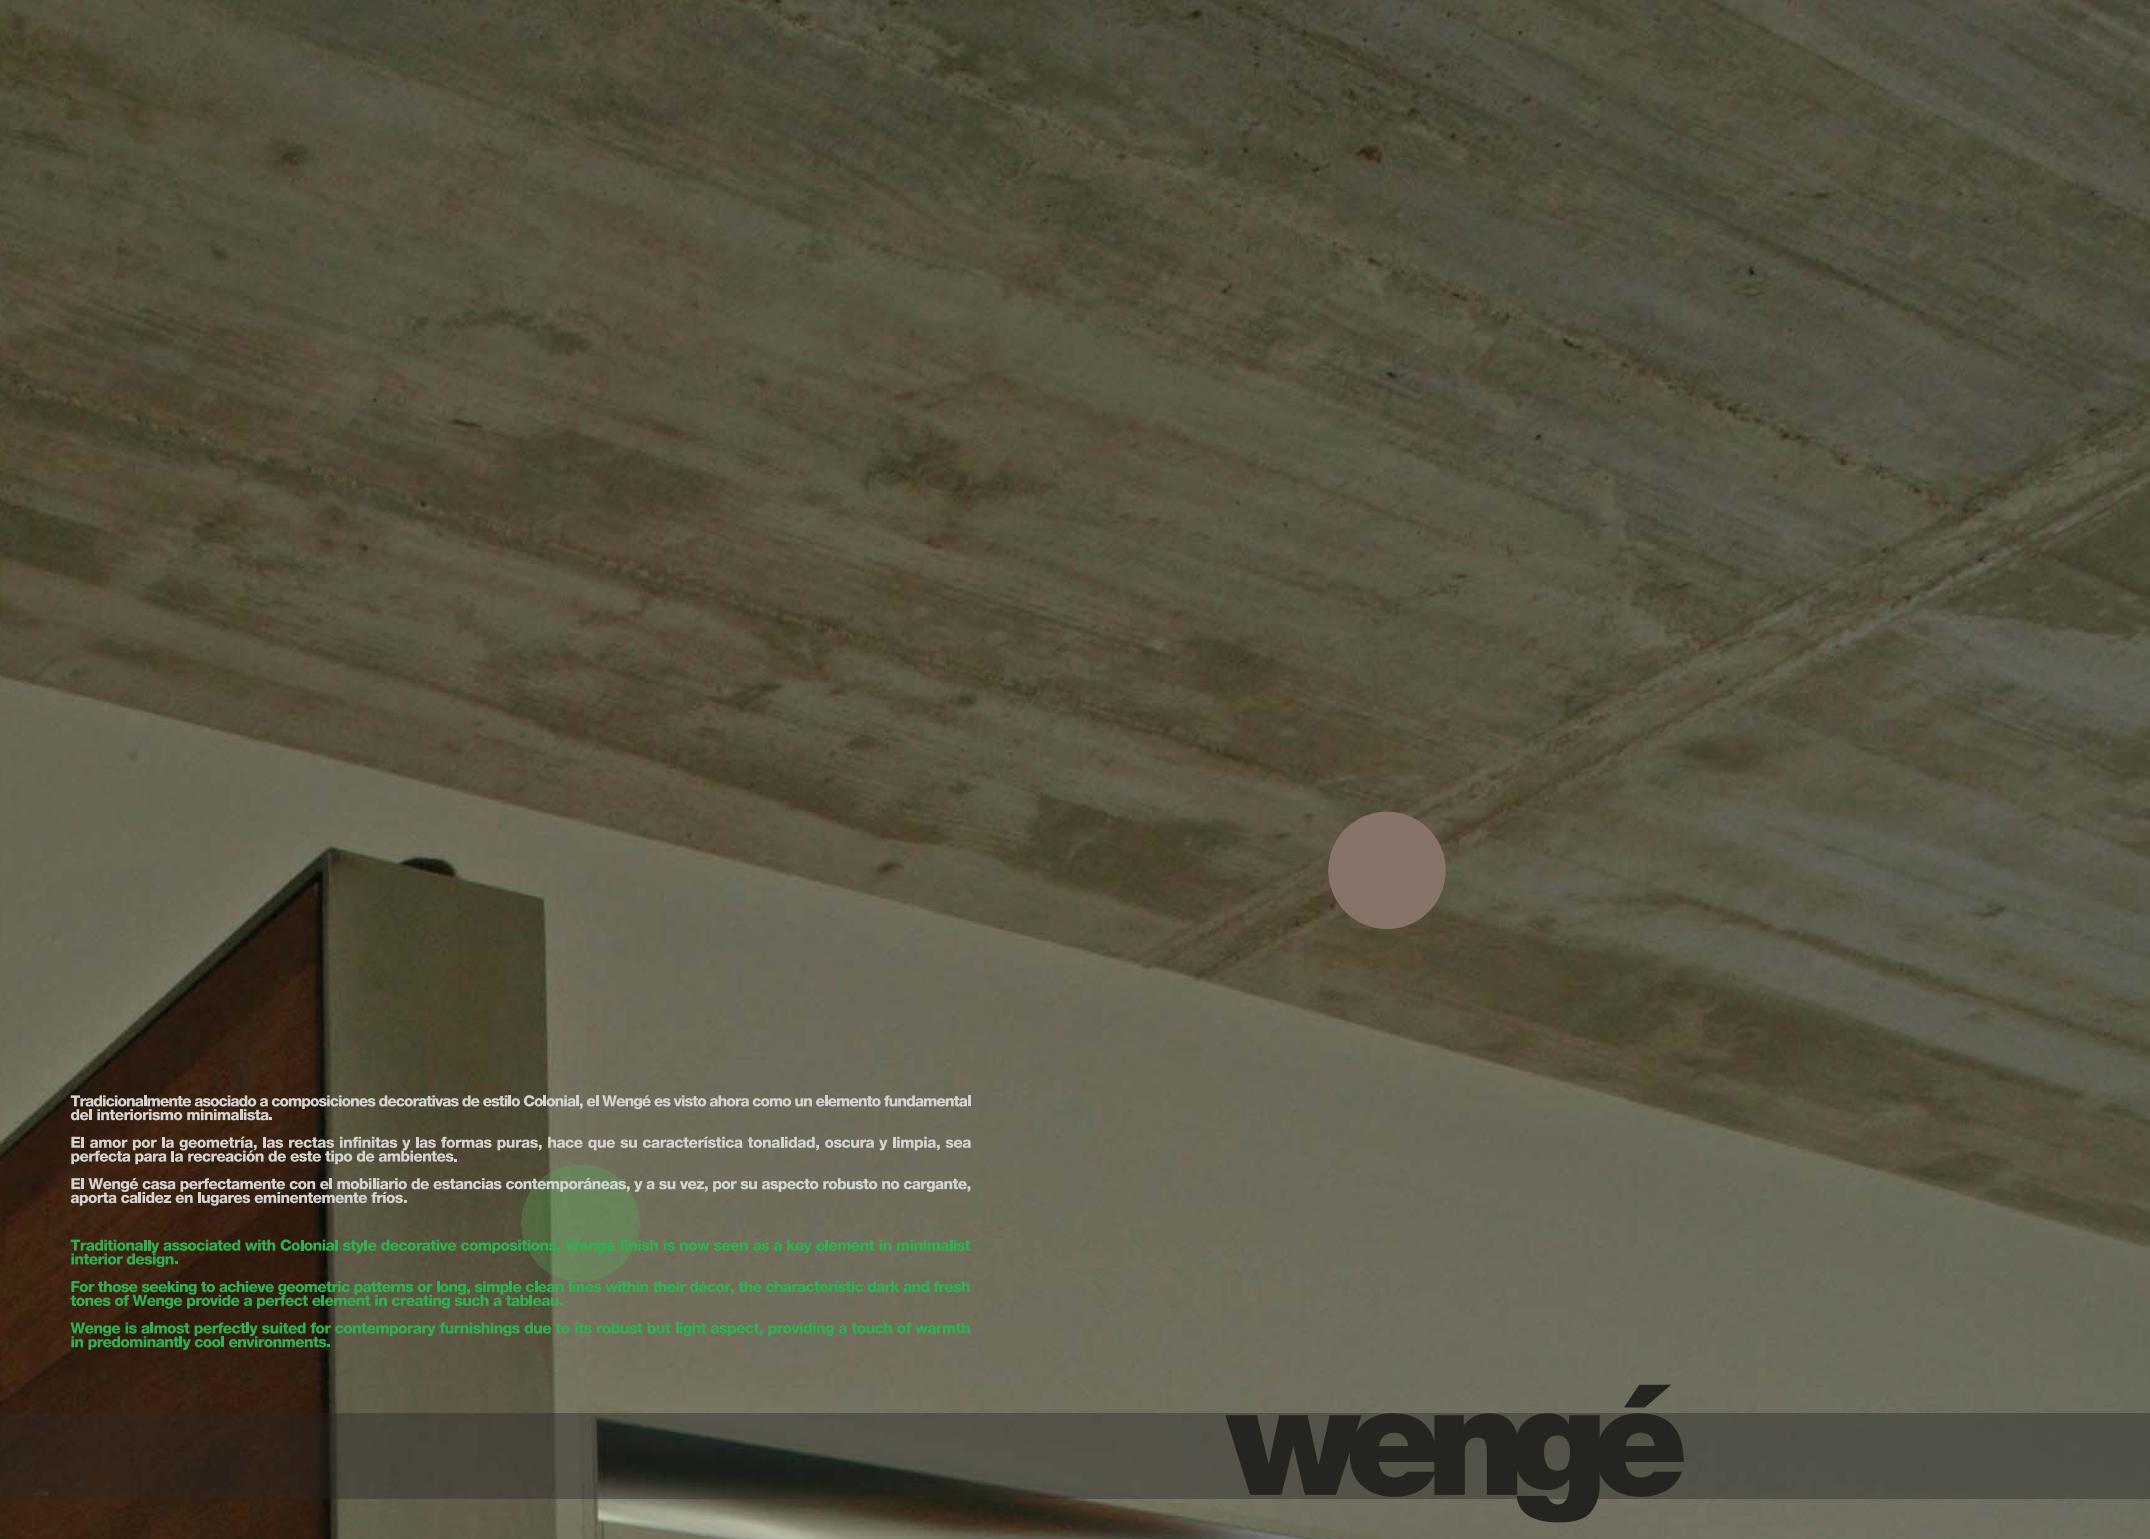

More than offering mere functionality, it can become a significant decorative element, both within our homes and outside. Taking care in the selection of appropriate materials and textures, ensures the creation of the best aesthetic effect.

Durante el proceso productivo y tras pasar los más exigentes controles de calidad y acabado, UNIARTE inserta su sello en el canto de la Puerta como garantía de autenticidad

Así usted tendrá la absoluta tranquilidad de estar adquiriendo un producto Original UNIARTE

Tradicionalmente asociado a composiciones decorativas de estilo Colonial, el Wengé es visto ahora como un elemento fundamental del interiorismo minimalista.

El amor por la geometría, las rectas infinitas y las formas puras, hace que su característica tonalidad, oscura y limpia, sea perfecta para la recreación de este tipo de ambientes.

El Wengé casa perfectamente con el mobiliario de estancias contemporáneas, y a su vez, por su aspecto robusto no cargante, aporta calidez en lugares eminentemente fríos.

Traditionally associated with Colonial style decorative compositions, Wenge finish is now seen as a key element in minimalist interior design.

For those seeking to achieve geometric patterns or long, simple clean lines within their décor, the characteristic dark and fresh tones of Wenge provide a perfect element in creating such a tableau.

Wenge is almost perfectly suited for contemporary furnishings due to its robust but light aspect, providing a touch of warmth in predominantly cool environments.

decapé

Los espacios de inspiración Clásica, en los cuales la sobriedad y la elegancia son rasgos definitorios, precisan la introducción de materiales y texturas suaves que armonicen el conjunto.

El tratamiento Decapé, consistente en la aplicación de una veladura sobre la madera, que suaviza e ilumina su superficie, se adhiere naturalmente a esta tendencia.

Gracias a ello combina perfectamente con tonalidades empolvadas, rosas, verdes, beige, grises pálidos y azules etéreos. Creando en su conjunto una atmósfera liviana y sosegante.

Situations with a Classical inspiration, defined by solemnity and elegance, call for materials with smooth surfaces and textures which harmonise with their surroundings.

Limed Oak Finish, a special blend of varnish which gives the surface of the wood a smooth and lustrous appearance, is a natural compliment to this style.

It complements perfectly where vaporous colours such as rose, green, beige, pale grey and ethereal blue feature within the decor. It creates an atmosphere of peaceful calm.

bambú

De origen asiático, el Bambú es un material resistente y fresco, vinculado a espacios que sugieren tradición y respeto por el medio natural.

Las tendencias actuales de decoración posibilitan la introducción de elementos propios de las más variadas culturas. En ese sentido, el Bambú es una herramienta ideal para completar ambientes agradables y relajados.

Las puertas de bambú poseen una superficie dura y lisa, capaz de generar un tipo de ventilación cruzada que filtra la humedad y sanea el ambiente.

Of Asian origin, Bamboo is a strong and fresh material, for use within spaces which evoke tradition and respect for the natural environment.

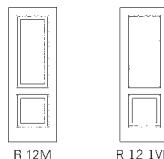

Current decorating trends have opened the door to the introduction of elements from diverse cultures. Thus, Bamboo is an ideal material to create a pleasant and relaxed environment.

Bamboo doors have a strong and smooth surface whilst their appearance evokes images of the natural environment.
